### Penrod Is Holdup Man To His Big Sister's Beaux

Every sister with an impish young brother has felt or will feel the irritation of Marjorie Daw as the sister of Penrod Schofield in Marshall Neilan's First National attraction "Penrod" which is to be shown at the Torrance Theatre July 2. Penrod, the character created from Booth Tarkington's inimitable stories of American boyhood, combines an astute business head with all the wiles adolescence is capable of. Sister, being a pretty girl, has more than the usual calling list of young men; but not a second's peace does she have with them until Penrod's toll is paid for ice creams and popcorn. Freckles Barry, who plays the title role, is said to have been selected by both Mr. Neilan and Booth Tarkington for his striking resemblance in appearance and manners to the author's conception of Penrod.

### Edison Stock Sale Over Top

OVER \$34,000,000 PAR VALUE OF COMMON STOCK TAKEN BY INVESTORS SUBSEQUENT TO LARGE LOAN

Sales of Edison Common Stock, which have been one of the principal financial activities of this section of the country for some time past, were discontinued at the close of business on Saturday. Since the Southern California Edison Company began selling its common stock to its consumers, employees and the people of Central and Southern California, in 1917, over \$34,000,000 par value of this security has been purchased by over 45,000 people. This money has been put into new electric construction, the major part of it having gone into the building of water power plants on Kern River, Big Bear and the San Joaquin River. It represents a part of the investment which the company has made during this time in water power development for electric generation and for distribution. The remainder has been derived from the sale of the company's bonds, which were for the most part negotiated in the East. The sale of Edison common stock has been very active for the past six months, culminating in "John B. Miller Week," during which the employees interested a large number of the general public in purchase of the stock by explaining the many advantages of such an investment. This work was in compliment to their president, John B. Miller.

### Ask Permission To Reduce Fares On Stage Line

The Redondo-San Pedro Stage Line has applied to the Railroad Commission for permission to operate for a period of sixty days from Lomita to San Pedro between the hours of 9:00 A. M. and 3:00 P. M. and 7:00 P. M. and 9:00 P. M., at a reduced rate of 25c for a return ticket instead of the regular fare of 35c; and to reduce the fare from 10c to 5c for transportation from either end of Lomita to the center of the town during the hours mentioned above. If the patronage is not increased during the sixty days of reduced rates, the reduction will be discontinued.

Some folks seem to think that a soiled silk shirt is more glorious than a clean cotton one.

The United States is called a nation of spenders, but so long as people can borrow the money they feel that they should worry.

Formerly candidates used to get elected by promising to protect the home, but now some of 'em think they can get there by promising to protect the home brew.

It would be against their principles for the town knockers to join the Smile and Be Happy campaign.

## LET OTHERS TELL IT

When John Says--  
"John is a fine fellow,"  
he bores you--

When others say--  
"John is a fine fellow,"  
he interests you.

There's very little about a newspaper that the newspaper itself can say that is interesting to the advertiser; practically only two things--Circulation and advertising rates. So we will let others tell you how good the Herald and News Letter are.
